TRUSTEES MEET.

Schools Crowded In Lower Grades -Important Resolution Adopted.

At a meeting of the trustees of the graded schools held this week the following resolution was adopted:

Resolved, That after October 15, of each scholastic year no pupil will be admitted to the first grade.

The school is now crowded, especially in the lower grades. There are now fifty pupils in the first grade, and if pupils are admitted all along during the year it will necessitate the formation of another class and one class with fifty pupils is as much as one teacher can handle and the funds at the disposal of the trustees will not permit the employment of another teacher. In fact the present teachers should be paid at least ten dollars per month more than they receive.

The fact is the trustees should raise the age limit for admission to the first grade to at least seven years and it would probably be better still to make it eight years.

And pupils at the mill school should not be taken beyond the fifth or sixth grade and thus given better attention to the pupils from these grades down, and let pupils who have finished these grades in this school come to the Boundary street school. There are now, we understand, only nine pupils in the mill school above the fifth grade. The higher grades at the Boundary street school are not crowded and these nine could receive better advantages by the transfer and the pupils below in the mill school would also receive mere attention and receive the benefit of the

The Hoge school should stop with the sixth grade, and instead of having the grades so crowded, divide the pupils among the teachers from the sixth grade down and give these people that education which will fit them the better to perform the duties of citizenship. There is very little use to teach them Latin and algebra and the higher branches. Better put that energy on an effort to implant those things necessary to fit them for the discharge of

their duties to society and to the State. Prof. Stuckey has the schools well in hand and is making a very favorable Summer Bros. impression upon our people and successfully managing the schools.

State Geologist Sloan Explains.

State Geologist Earle Sloan has written Dr. James McIntosh, chairman of the commissioners of public works, in answer to Dr. McIntosh's letter correcting a statement from Mr. Sloan, published in the State, in which Mr. Sloan said that Newberry's artesian well had failed. Mr. Sloan in his letter says that he told the reporter that he understood that Newberry's well had failed, but that his statement was intended for the private guidance of Columbia and not for the disparagement of another city's advantages. In reply to Dr. McIntosh's invitation to Mr. Sloan to visit Newberry Mr. Sloan says: "My program contemplates a trip through parts of Newberry and Saluda counties during early October, at which time I shall be pleased to join you in attesting the merits of your worthy enterprise.'

First Cost Not the Cheapest.

The first cost of an article does not necessarily determine its cheapness. For instance, a sack of "Clifton" flour may cost you a little more than other so-called patent flours, but it will be cheaper to you in the end. Why? Because it will not only make more bread to the sack, but will take less lard and soda to make it. Order a sack of "Clifton" and make a test for yourself. It will prove the truth of this statement.

ANOTHER ARREST MADE.

One of the Negroes Wanted in the Butler Kinard Case.

Sheriff Buford has been working for when he went to get him he had dodged was in Saluda county but moved on to Dominick and Jno. M. Kinard. Mrs. Fannie Gilliam of Spartanburg Floyd and Mr. Ben Sample went to the board submitted the annual report again. Mr. Floyd returned to Newberry but Mr. Sample followed Sanders on to a house about one and a half miles from Chappells on the Saluda side when he again located him and this time got the house surrounded and captured him. On Monday night Sanders spent the night in the woods. When he was captured Mr. Sample phoned Sheriff Buford and he went over after him and brought him to jail landing him safely about 12 o'clock Tuesday night.

Sheriff Buford is very proud of his success in this case and rightly so for it has taken a good deal of work and vigilance to locate and catch Sanders. Sanders disavows any knowledge of the murder though we believe he admits having spent the night with Edwards and having in his possession at one time the watches, one of which at least was afterwards identified as the watch owned by Butler Kinard.

Sheriff Buford has a good record during his terms in the matter of catching those charged with crime and he has had only two escapes and in both cases recaptured the prisoners so in reality he has not had an escape.

Yom Kippur.

Yesterday was another Jewish holiday beginning of the new Jewish year 5664 and known as the Day of Atonement. It was observed by all of their places of business at 6 o'clock on Wednesday afternoon and did not open again until yesterday afternoon at 6 o'clock. During this time they fasted, neither eating nor drinking. It is a day set apart for the purification of the heart and the renewal of the spiritual life of the Jews and is spent in fasting and prayer.

The elective members of the board were re-elected as follows: Geo. W. Summer, G. M. B. Epting, W. E. Pelham and L. M. Speers.

Mr. F. H. Dominick moved that inas much as the meeting was small another meeting be called to consider any mat ters connected with the schools. The motion was not adopted and the meet ing then adjourned.

The report of the trustees is pub lished on the fourt page of this paper ANNUAL ELECTION.

The annual election for the two mill special tax was also held on Tuesday The vote was very small and resulted

For the tax..... Against the tax.....

Majority for tax..... With the annual election on this tax and the indifference of the firiends of the school some day those who are op posed will carry the election against the school. We can see no reason for ar annual election. If the levy was fixed at two mills it would be as easy to have an addition made as to increase the levy if the necessity ever required it.
